

To our community partners,

BMO has a strong commitment to supporting our community partners and enabling them to be independent, strategic and adaptive leaders for our rapidly changing world.

Now more than ever, the non-profit sector in all its strength is needed in our communities, and we are here to support you. We will remain steadfast and committed to our community partners as you navigate through this time.

While our commitments to you remain unchanged, we understand that these extraordinary times have and will result in changes to programs or cancelled/rescheduled events. Being flexible and adaptive is critical during this time, and we are open to working together to shift our funding to areas that are most needed.

In this time of need, BMO is also offering [relief measures to support the well-being of our customers, communities and team members](#) on both sides of the border. In Canada, we recently announced [\\$1 million to support the United Way Community Fund](#) to fill gaps for community services due to COVID-19. In the United States, we donated a total of \$500,000 to [support crisis relief efforts](#) in areas of immediate community need.

Our communities already rely on you to offer exceptional services and support, and we expect these demands will intensify in the coming weeks and months. We, at BMO, are truly grateful for all that you do, and are extremely proud of our partnership with you.

Thank you,

The BMO Community Giving team.
